To Whom It May Concern:

Mike Menhinick worked at Fisher & Paykel Production Machinery Ltd for a period of 6 years between 1989 and 1995, initially as a machine designer, later being promoted to design manager. Throughout this period I was employed as the workshop manager, in this capacity I was in frequent contact with Mike.

His innovative yet very practical designs were always well received by the tradesmen, Mike's willingness to accept input from the workshop team was always appreciated. Since leaving Fisher & Paykel, Mike's services as a contract designer have often been called upon, he continues to provide prompt, high quality service.

I have no hesitation in recommending Mike as a permanent employee or as a design contractor of the greatest integrity.

Chris Mirfin

Project Manager
